

# Findings from the Field

## Important Links and Information

For the Journal:

1. Tell us you are interested in submitting and peer reviewing or *only* peer review.

[Participate in Findings](#)

2. Have your students complete the permission form if they are going to submit to the journal

[Permission Form](#)

3. Use our resources to guide you through

[Findings Resources](#)

4. Once students have completed their articles or notes, have them submit. \*You will receive an email that they have submitted.

[Submit to the Journal](#)

5. When your students are ready to peer review let us know the grade level and how many your class can review

[Ready to Peer Review](#)

6. Once you have received submissions for students to review, they can use the feedback form online to submit their feedback. Students may complete reviews individually, in pairs, or small groups. You will receive notification that feedback has been submitted.

[Submit Feedback](#)

\*\*If you prefer students to complete the feedback on paper you may print the form and submit it here.

[Upload Paper Forms](#)

7. Students review their feedback, revise and resubmit.

[Submit to the Journal](#)

8. Once students have been accepted through peer review, the submission will head to our editorial board. We offer small stipends to editors who complete reviews, about 10 per editor. If you are interested, head to the form.
